Tara's Babies dogs may come from unknown circumstances. Even if they are normally well-behaved dogs, they are entering an unfamiliar environment - they could have a couple accidents in the house during the adjustment period and some may chew furniture or other items left within reach. This is a very important reality with fostering. How do you feel about this?

**Tara's Babies routinely arranges a home visit with new foster homes and adoptive homes. The goal is not to check for cleanliness or housekeeping, but to make sure that the home is or could be compatible with the lifestyle of a rescue dog. The yard is checked to make sure it is securely fenced, the sleeping area for the dog is inspected, and toilet duties for the dog are discussed.**

Are you willing to have a home visit prior to fostering?  Yes  No

All the information I have provided on this application is, to the best of my knowledge, true and complete. I understand that falsifying answers on this application, or at any other time during the approval process disqualifies me from fostering.
